

# SUPERFRY

THE HIGH-TECH WAY TO FRY

THE FIRST HIGH-PERFORMANCE,  
INTELLIGENT AND SUSTAINABLE FRYER EVER MADE

 **OFFCAR**<sup>®</sup>  
THE GREAT COOKING

# N7FRE15HPA FRYER S.700 15LT ELECTRIC

SuperFry 700, thanks to the innovative high-efficiency electric heating system, it allows a **high and constant production**, guaranteeing considerable energy saving.

Thanks to its intelligent cooking system and connectivity, SuperFry 700 allows you to program and correct its operations even **remotely**: automatic filtration of hot oil, lifting of the baskets linked to the recipes, washing program, etc. All included in 70 cm depth!

## PHENOMENAL IN THE RIGHT PLACE

Even in a small place, maximum efficiency in terms of:

- ◆ PRODUCTIVITY
- ◆ CONSUMPTIONS
- ◆ USER

### COOKINGCORE

The software which manages all tasks (programs and recipes, oil filtration, washing program), corrects human errors (intelligent cooking system) and anticipates the need for raw materials. Its learning matrix ensures **perfect results** every time.

### WHAT IS THE BENEFIT FOR THE USER?

Saving space and time, multifunctionality, easy to use and clean. The reduction of energy consumption, resources and waste, the improvement of the atmosphere in the kitchen. The user can count on a **valid collaborator** who assists, helps and allows him to devote himself to the pleasant part of his work. Do more without stress.

## TECHNICAL INFO

- Tilting flat heating elements to maximize both easy cleaning and highest cooking efficiency.
- AISI 304 Y-shaped frypot with wide cold zone to drain the impurities (with filter).
- Intuitive 7" coloured touch screen with interactive icons.
- Library with 20 different programs configurable and personalizable. All of them managed by the automatic basket lifters.
- Express filtration system integrated for the fastest warm oil filtration.
- Intelligent Cooking System (ICS) for automatic load managing to reduce human errors and maximize both quality and replicability.
- Cleaning program with chemical tabs - OFF TABS.
- MELTING function for the most gradual solid greases fusion and ECO mode to maximize the energy saving while the fryer is not used.
- USB/WIFI connectivity to the Cooking Cloud to surf and handle real-time all your fryer's data.

### MODEL: N7FRE15HPA

Dimension: 400x730x900 mm

Power: 14 kW
